

THE 2022 PASS-THROUGH INCREASE

WHAT YOU NEED TO KNOW

It applies to parents currently receiving
cash assistance
through the CalWORKs program

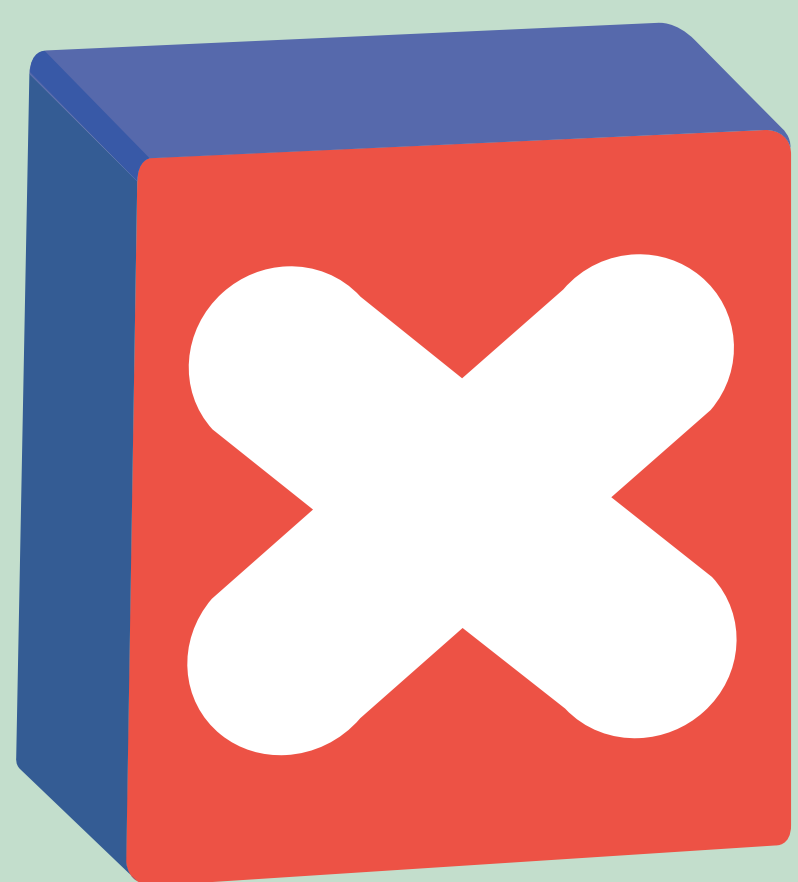

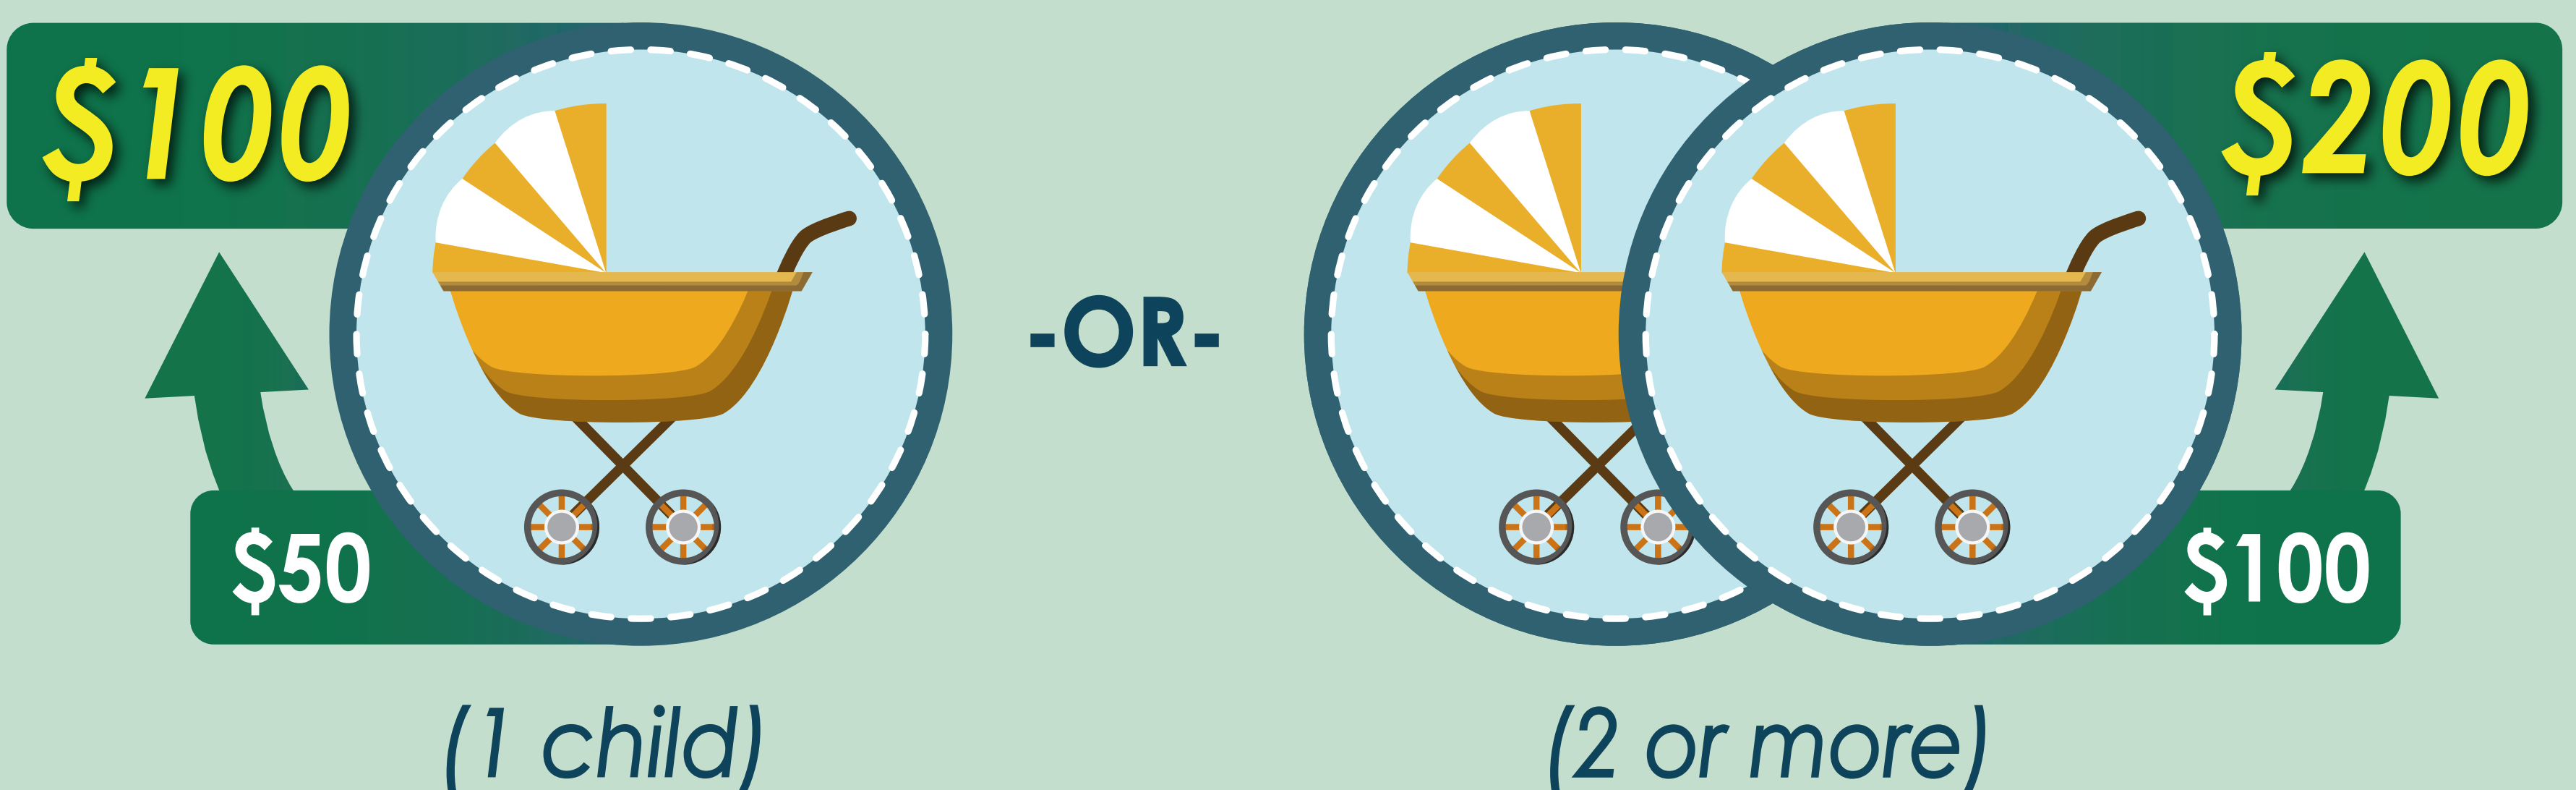

It goes into effect starting
January 1, 2022

It lets families have
more money
while the government keeps
less as reimbursement

Depending on the **number of children**
you have living in the home, the amount of collected child support
passed through to you **may increase**

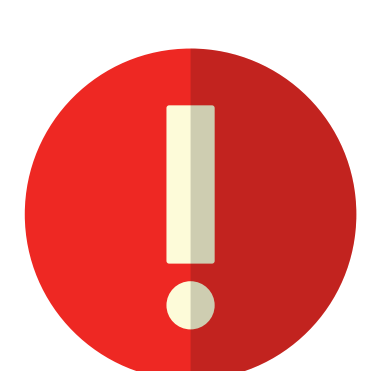

It **DOES NOT** mean that the parent
ordered to pay support is paying more
It **DOES NOT** mean that you will receive
less cash assistance through CalWORKs

It is not a mistake and you do not
have to return any of the increased
amount you may receive

The change will automatically
begin January 1, 2022 with
no required action

If the current child support collected is less than \$100 for 1 child, or less than \$200 for 2 or more children, you will only receive the amount collected, NOT the increased amount.
